

## Stellarity Project Investor Offer

### Stellarity is now ready to take the next step in the expansion

We are excited to extend an exclusive offer for early investors in the Stellarity project. This offer is designed to provide affordable entry points for those who believe in our vision and are ready to support our growth from the onset. We are looking for one to ten investors at this stage.

Here are the details of the offer:

### Company Shares Allocation

We are offering 5% of Stellarity's company shares for early investors. The share distribution is structured as follows:

- Investment of 50,000 USDT: Receive 0.5% of the company shares.
- Investment of 100,000 USDT: Receive 1.25% of the company shares.
- Investment of 250,000 USDT: Receive 3.75% of the company shares.
- Special First Big Investor Offer: The first investor to contribute 300,000 USDT will be awarded 5% of the company shares.

### Stellarity Tokens (STYT)

Stellarity Token (STYT) is the native token of Stellarity, designed to give everyone the possibility to participate in the Stellarity ecosystem and benefit from the increase in STYT value driven by Stellarity's business operations. The key factors driving its value growth are transaction fees generated through its use as a payment method, from transaction fees when using STYT, from exchange fees for swaps and trades involving STYT. These fees enhance the token's value over time.

As an investor you will not only get shares in the company. In addition, you will also receive Stellarity Tokens (STYT) equivalent to 50% of your invested amount at the price of 0.8 USDT for each STYT. The current market price for STYT is 1.08 USDT each. This means:

- Investment of 50,000 USDT: Receive approximately 62,500 STYT.
- Investment of 100,000 USDT: Receive approximately 125,000 STYT.
- Investment of 250,000 USDT: Receive approximately 312,500 STYT.
- Investment of 300,000 USDT: Receive approximately 375,000 STYT.

### Why Invest Now?

Stellarity is now ready to take the next step in its expansion. To ensure the seamless operation of our business areas and to provide faster transfers to our customers, we need to build sufficient liquidity. Your investment will directly contribute to this goal, enabling us to enhance our services and accelerate our growth.

### Summary of Benefits

1. **Equity Ownership:** Secure a stake in Stellarity, aligning your interests with our growth and success.
2. **Discounted STYT Tokens:** Participate in the Stellarity ecosystem with STYT tokens at a discounted rate, enhancing your potential returns given the current market price.
3. **First-Mover Advantage:** Take advantage of this limited-time offer to maximize your investment benefits.

We believe this structured offer not only rewards your early commitment but also positions you for substantial growth alongside Stellarity. You can also read more about the project at <https://styt.stellaritygroup.com/>

We look forward to welcoming you as a foundational partner in Stellarity's journey to revolutionize the industry. Should you have any questions or need further information, please do not hesitate to contact us at [info@stellaritygroup.com](mailto:info@stellaritygroup.com).
